

Boggart volunteers

Boggart Hole Clough in north Manchester, a woodland for the past 10,000 years, became a Municipal Park in 1894 and a Local Nature Reserve in 2008.

Boggart Hole Clough Community Action Trust (BHCCAT), founded in 1999, is a democratic organization of volunteers open to all. Membership is free.

Through community engagement BHCCAT aims to ensure that the Clough is a sustainable, thriving place for people & wildlife.

We work in partnership with, among many other individuals & organizations, Manchester City Council (MCC) the landowner of the Clough.

BHCCAT Executive Committee **OPEN MEETINGS** with MCC representatives enable community participation in the Clough's management & planning. These meetings have initiated several further ongoing activities:

WILDLIFE REGENERATION

Conservationists restoring the Clough's biodiversity health;

ALL ABILITY CYCLING

People of all abilities / disabilities riding cycles on the Clough's athletics track;

GUIDED WALKS

Enjoying the Clough's wildlife, improving people's health;

ARTS EVENTS

Including summer afternoon musical / theatrical performances in the Clough;

HERITAGE EXPLORATION

Developing greater understanding of the Clough's history & ecology.

More volunteers are wanted to progress the above activities; everyone is welcome to join us.

Also **more sponsors are needed** to finance our voluntary work.
